

Curb Smart™

Parent Account Setup Guide

Welcome to CurbSmart – we’re excited for your school to begin using this tool to manage the dismissal process. This guide includes the information you’ll need to set up an account, add authorized family members and guardians, make ride changes, and view your student’s dismissal history.

CREATING YOUR CURBSMART ACCOUNT

- 1) In your browser enter the URL www.curbsmart.net and click on **CREATE AN ACCOUNT**.
- 2) Enter your **First Name**, **Last Name**, **Email**, **Username** (your email address will automatically fill the username field, but can be changed if desired) and **Password** (your password must be at least 8 characters and contain 1 upper case letter, 1 lower case letter and 1 number). You may also enter your **Relation** to your student and **Contact Number** if desired.
- 3) Next, enter the School Code (provided by the school) and Placard Number (provided by the school).

Nappanee Elementary

School Code = email jeggers@wanee.org or sknight@wanee.org for school code

The screenshot shows a web form for creating a CurbSmart account. The form is titled "Create Account" and contains the following fields and elements:

- * First Name: Text input field containing "Jane".
- * Last Name: Text input field containing "Doe".
- * Email: Text input field containing "jdoe@curbsmart.net".
- * Username: Text input field containing "jdoe@curbsmart.net".
- * Password: Text input field with masked characters "....." and a green checkmark icon on the right.
- Relation: Text input field.
- Contact Number: Text input field containing "(999) 999-9999".
- * School Code: Text input field with a blue link "Where can I find this?" above it.
- * Placard Number: Text input field with a blue link "Where can I find this?" above it.
- By clicking **Create Account** below you agree to the [Terms of Use](#).
- Create Account** button.
- Have an Account? [Log In](#)

- 4) After entering the necessary information click **Create Account** and you should receive a 'Success' message. Note: If you're the first parent to create an account for this placard number, you're considered to be the Account Admin.
- 5) Login to your account using the username and password you created.

*CurbSmart is available through your phone's browser (such as Google Chrome or Safari) or can you download the APP through the App Store or Google Play Store.

MANAGING YOUR CURBSMART ACCOUNT

Once you create your account, your students are linked to your account through the placard number that the school provided, and you will be designated as the Account Admin on that placard.

Basic Information

Complete the details of your account on this screen. This information is helpful for school administrators to use to confirm your account in the event you don't have your placard number when you pull up in the car line. You can also add vehicle information for each authorized adult on your account.

Search & Add a Student to Your Account

Enter student's ID

-- no data found --

Changing the Student’s Pickup Type, or Way Home

Click the ‘Change Pickup Type’ link below each student to see their default method for going home. Note that your school may be using CurbSmart to only manage car riders; if this is the case, you won’t have any other options for pickup type, and you can disregard this option.

To change the default pickup type, or way home, click the blue pencil icon in the Action column.

If you’d like to change your student’s pickup type for a specific day or on a scheduled basis, then you can use the ‘Schedule Pickup Type’ link. This allows you to assign an alternate way home for your student for today, all school year, or a date range. Note that if you choose All School Year or Selected Date Range, you can choose the days that this pickup type change occurs. For example, if your student is normally a Car Rider, but rides home on the bus on Fridays, you can set All School Year and choose Friday in the Repeat Every option.

Parents/Guardians

You can add other parents/guardians to your account in the Parent/Guardian tab. Parents/guardians include any person who always has permission to pick up your children from school (i.e. grandparents, aunts, uncles, etc.).

The screenshot shows the 'Curb Smart PARENT SETTINGS' interface. The 'Parents/Guardians' tab is active, showing a list of existing parents/guardians for Placard #101. The list includes Tina Johnson, Mom, and Erick Johnson, Father. Each entry has a profile picture, name, address, phone number, and email address. There are links for 'Set as Default Pickup' and 'Set Permissions' for each parent. Below the list is a '+ Add a Parent/Guardian' link. To the right is a form to add a new parent/guardian with fields for First Name, Last Name, Contact Number, Relation, and Email Address. There is also a checkbox for 'Admin' and a 'SAVE' button.

Adding Other Parents/Guardians

To add another parent/guardian to your account, enter their First Name, Last Name, Contact Number, Relation to the child, and Email Address. If the email address is not already used with an existing CurbSmart account, it will link the new parent/guardian's email address to your account when they sign up for CurbSmart.

Note: The account admin (first parent who registered) will need to add the other parents/guardians in the Parent/Guardian tab with their email address **first** before the other parents can register for a CurbSmart account.

After entering the email address, you'll see a checkbox for 'Admin.' Checking this option gives admin access to the new parent/guardian you create, meaning that they will have full access to the account, except for removing the Account Admin. You can adjust the permissions of the new parent by clicking the 'Set Permissions' link on the name of the parent's information block. Here is an explanation of the permissions:

- Basic Information (cannot be removed) – allows user to see the Basic Information for their account (i.e. name, address, contact number)
- My Students (cannot be removed) – allows user to see the list of students on the account
- Vehicles – allows users to add vehicles
- Add Student – allows users to search for and add students to the account
- Schedule Pickup Type – allows users to change the pickup type, or way home, for the student
- Schedule Activities – allows users to change or schedule activities for the student; if enabled by the school.
- Mark Absent – allows user to mark the student as absent from school, if enabled by the school

- History – allows user to view the release history for the student
- Parent/Guardian – allows user to add, edit, and set permissions for parents/guardians
- Other Adults – allows users to see the Other Adults tab and add other adults as authorized pickups for the account
- Add to carpool – allows the user to add a carpool for the student

Creating CurbSmart Accounts for Additional Parents/Guardians

After the Account Admin has added the parent/guardian to their account in CurbSmart, the additional parent/guardian can register for a CurbSmart account (at www.curbsmart.net > Create an Account) **using the same email address that you provided when entering this adult.** They'll also need to list the School Code and Placard Number like you did when you set up your account. Once created, the new parent's account will be linked to yours, and they will see the same students, parents/guardians, etc. as the account admin (main parent). You can adjust their permissions on the Parents/Guardians tab.

Separated or Divorced Parent/Guardian Accounts

In a situation where parents require separate CurbSmart accounts, they will need separate placard numbers. Parent A will not add Parent B as a parent/guardian to his/her account because Parent B will be on his/her own account. By default, students will only be assigned to one placard, so in order to provide Parent B with a second placard number, the school admin will need to add a new parent in Parent Management and add the student to his account which will assign the second placard to that student.

Other Adults / Carpools

The Other Adults tab will show the names of adults who are also authorized to pick up your children from school, including carpools, neighbors, friends, sitters, etc.

To add an other adult, or carpool, first enter the placard number of the adult responsible for the carpool. Once you click out of the placard number field, you'll see the first and last name of the adult.

Enter your relationship to this adult in the Relation field (i.e. Neighbor, Friend, Carpool, etc.). Set the date of the carpool and select which of your students (if you have more than one), that should be included in this carpool. This will allow the Other Adult in the carpool to pick up their children as well as yours.

SAVE

In some situations, parents want to list another person, besides a parent/guardian, to be on their authorized pickup list (i.e. Sitter, Neighbor), but they may not have a placard of their own because they don't have a child at the school. To add these adults, leave the placard number field blank and enter their name, relation, and select their approved days to pick up your children. These adults will need a hangtag with your placard number in their vehicle to pick up your children.

Note: If your school uses the parent check-in feature from the mobile app, then these authorized adults without a placard will not have the ability to check-in from their account in the car line and will need to have an administrator enter the placard number instead.

History

The History page will show when your students have been released from school for the specified date. Parents can opt to see release history for the past by changing the 'From' and 'To' dates. In the space below, the parent will see the date and time the student was released, the adult who picked up the child, and the School user who released the child from school.
